SUMMARY

To work in a challenging and growth-oriented environment where I can contribute my skills and knowledge, and gain valuable experience for a successful professional career.

EXPERIENCE

Database Administrator

June '24 — May '25

SARA Builders and Developers (10 Months)

Pune

Responsible for maintaining accurate and up-to-date data across systems, ensuring data integrity, consistency, and security. Manage data entry, cleansing, and validation processes. Support data analysis, reporting, and decision-making. Collaborate with cross-functional teams to optimize data workflows. Maintain the CRM Sheet using Google Sheets and Excel.

Sr. Tech Support Engineer

Mar '24 — Sep '24

SARA Builders and Developers (10 Months)

Pune

Provide advanced technical support, troubleshoot complex issues, and ensure timely resolution for clients. Collaborate with engineering teams to resolve escalations, document solutions, and improve support processes. Mentor junior staff, manage critical incidents, and maintain high customer satisfaction. Continuously update knowledge on products, systems, and emerging technologies to deliver expert assistance.

INTERNSHIP

Full Stack Java Developer

Sep '22 — Feb '24

Cravita Technology

Pune

Full Stack Java Developer with expertise in front-end technologies (HTML, CSS, JavaScript, Bootstrap), backend development using Java, and seamless database connectivity via SQL. Developed responsive web applications using Bootstrap templates and ensured efficient data handling with JDBC for dynamic, user-friendly, and scalable solutions.
